**COLLEGE OF APPLIED HUMAN SCIENCES**

---

**Community Organizing to Reach  
Empowerment (CORE) Center  
School of Social Work**

**Gift Opportunity - \$250,000 - \$1,000,000**

**Create opportunities for improved living conditions, safety and well-being, and educational opportunities that lead to self-sufficiency.**

Located in the Fort Collins area with the highest concentration of poverty, the CORE Center provides educational programs to the residents who continue to face challenges precipitated by socioeconomic, cultural, and linguistic differences.

The vision for the Center is to create opportunities for residents to build on their strengths, address relevant issues, and develop solutions that affect their quality of life and future potential.

Recently welcomed into the School of Social Work, the CORE center needs a permanent home and funds to sustain programming and staffing goals to continue to support this important work being done in our community.
