

The Campaign for Colorado State University
COLLEGE OF APPLIED HUMAN SCIENCES

Graduate Teaching Assistantships

Gift Opportunities

GTA Endowment - \$25,000 - \$250,000

Annual Assistantship - \$15,000

Adding value to programs and subjects you are passionate about.

As vital members of the university community, Graduate Student Assistants are critical to the intellectual exchange among students and faculty. Your shared passion with a faculty member or area of study will directly support the success of the program through the GTAs.

Essential to the fundamental elements of the learning experience, GTA's contribute to teaching, grading, facilitating laboratories, preparing lectures, tutoring, leading discussion sessions, designing exams, monitoring tests, conducting research and other duties as needed in the course.

Specific requests for GTA funding exist in the departments of:

- Design and Merchandising
- Food Science and Human Nutrition (Restaurant and Resort Management)
- Health and Exercise Science

There is always need for teaching assistance in each program across the College. Where do you want to make a sustaining mark?
