

*The Campaign for Colorado State University*  
**COLLEGE OF APPLIED HUMAN SCIENCES**

---

## **Human Performance Clinical / Research Laboratory (HPCRL)**

**3,800 sq ft Building Addition  
Health and Exercise Science**

**Gift Opportunity - \$20,000 - \$1,000,000**

**Are you passionate about physical activity,  
wellness, and disease prevention?**

You are invited to be a pivotal partner in helping:

- Inspire active and healthy lifestyles.
- Prevent diabetes, heart disease, and obesity.
- Provide hands-on learning experiences for students.
- Conduct groundbreaking research on chronic disease prevention.
- Add years to the lives of Colorado citizens.

Lofty goals are being met in the Heart Disease Prevention Program (HDDP) by students and faculty - and clients they serve.

In part because of the success of the HDDP, and also due to the growing research programs, the HPCRL is expanding to accommodate the thriving endeavors taking place in the Department of Health and Exercise Science.

Private support has been and continues to be a critical component to the Department's progress and achievements. You can help us do what we cannot accomplish on our own.

*This is a brief introduction. You are invited to learn more at <http://hes.cahs.colostate.edu/ResearchLabs> or by contacting Lori Sims at 970.491.5669 or [Lori.Sims@colostate.edu](mailto:Lori.Sims@colostate.edu)*

### **Naming Opportunities**

PhD Offices  
\$ 20,000-30,000

Skeletal Muscle  
Clinical Lab  
\$ 50,000

Clinical Flex Lab  
\$ 50,000

Clinical Intervention  
\$ 50,000

Energetics Mechanics  
\$ 75,000

Cell Culture  
\$ 75,000

Core Wet Lab  
\$ 150,000

HPCRL Wing  
\$1,000,000
