COLLEGE OF APPLIED HUMAN SCIENCES

Scholarships

Gift Opportunity - \$1,000 and greater

**Believe in a student... encourage
excellence... change lives.**

Today's students are passionate about making our world a better place, and our academic programs are empowering them for successful and noble careers in the "people professions."

Your scholarship gift is a powerful way to help students pursue fields that are important to you while making a sustaining mark on many lives. Ultimately, your gift not only touches your scholarship recipients, but will have a wide-reaching, ripple effect on the many people and families that they will go on to serve in their post-academic lives.

In addition to supporting students, your scholarship gift can also honor those who have made a difference in your life. Named scholarships can pay tribute to a loved one or special faculty member, preserve a family name, or highlight a company presence. Scholarships connect the past, present and future!

- Named scholarships can be established with a gift of \$1,000 per year.
- Endowed scholarships, funded with a gift of \$25,000 or greater, will award scholarships to students in perpetuity.
